WORLD'S LARGEST WARSHIP LAUNCHED

Sister ship to the Texas takes the Water at Brooklyn

New York, Oct. 31.—With her champagne-splattered bow glistening in the sunshine and a pretty girl crying "I christen thee New York" the steel shell of the \$6,000,000 super-dreadnaught that is soon to be the latest "pride of the navy" slid down greased ways in the Brooklyn navy yard into the East river's murky waters.

At least 100,000 persons witnessed the launching, the most notable being President Taft, who, from a private stand, smiled on Miss Elsie Calder, daughter of Congressman Calder, as she crashed a beribboned champagne bottle against the battleship's steel bow.

The New York is a sister ship to the Texas, launched at Newport News a few months ago. Like the Texas, she will have an armament of fourteen-inch guns. She will also have twenty-one five-inch guns strung along her side.

The New York, together with her sister ship, the Texas, is the largest battleship in the world.

LOOK TO YOURSELF.

There is an idea abroad among moral people that they should make their neighbors good. One person I have to make good—myself. But my duty to my neighbor is much more nearly expressed by saying that I have to make him happy, if I may.—Stevenson.
